Teradata certification

Expand your knowledge & credibility

Why get certified?

Maximize your competitive advantage—become certified in the world's most powerful database technology. More than 71,000 Teradata certifications have been awarded, each recognized as an industry-standard measure of Teradata technical competence for IT professionals.

Questions?

Contact Teradata Certification team (certification.teradata@ teradata.com) to find out more about exam preparation, registration, and new exams in development. We are here to help!
